

Gamma-emitters as ^{85}Sr and $^{95\text{m}}\text{Tc}$ applied as tracers in radiochemistry

Thursday 28 February 2013 11:00 (20 minutes)

Recognition of the presence of ^{99}Tc and ^{85}Sr in environment of Poland using radiochemical separation and LSC technique.

Author: Dr KLESZCZ, Krzysztof (IFJ PAN - The Henryk Niewodniczanski Institut of Nuclear Physics Polish Academy of Science)

Co-authors: WAS, Bogdan (Institute of Nuclear Physics Polish Academy of Science, Radzikowskiego 152, 31-342 Kraków, Poland); Prof. MIETELSKI, Jerzy (IFJ PAN - The Henryk Niewodniczanski Institute of Nuclear Physics, Polish Academy of Science, Radzikowskiego 152, 31-342 Kraków, Poland); BARTYCEL, Miroslav (Institute of Nuclear Physics Polish Academy of Science, Radzikowskiego 152, 31-342 Kraków, Poland); MISIAK, Ryszard (Institute of Nuclear Physics Polish Academy of Science, Radzikowskiego 152, 31-342 Kraków, Poland)

Presenter: Dr KLESZCZ, Krzysztof (IFJ PAN - The Henryk Niewodniczanski Institut of Nuclear Physics Polish Academy of Science)

Session Classification: Talks IV

Track Classification: SAAGAS 24
