## Development of high intensity accelerators for CANS at CEA/Irfu

*Thursday, 23 March 2023 11:00 (15 minutes)*

The Institute for Research into the Fundamental laws of the Universe (Irfu) at CEA, France, is developing and providing accelerator parts for various national and international projects.

Our competences and realisations on high intensity light ion accelerators suitable for the development of Compact Accelerator-based Neutron Sources will be presented.
