

European Conference on Neutron Scattering 2023

Tuesday, 21 March 2023

Energy Materials - MW 0 001 - Lecture hall (11:00 - 12:30)

-Conveners: Alois Kuhn; Neelima Paul

time	[id] title	presenter
11:00	[389] Competitive interplay between long-range oxygen and electronic ordering to promote low-T oxygen mobility in $\text{La}_2\text{CoO}_{4+d}$	PAULUS, Werner
11:30	[366] Investigation of sodium-ion diffusion in NASICON solid state electrolyte materials	PIVARNÍKOVÁ, Ivana
11:50	[8] Behaviour of the Jahn-Teller effect in NaNiO_2 with changing temperature and pressure	NAGLE-COCCO, Liam
12:10	[308] Exploring The Structure of MAPbI_3 Across its Phase Diagram Using Neutron Spectroscopy, Thermophysical Properties and First-Principles Simulations – A Closer Look at High Pressures	MARÍN VILLA, Pelayo
