

European Conference on Neutron Scattering 2023

Tuesday, March 21, 2023

From Polymers to Thermodynamics - SCC/0-001 - Lecture hall (11:00 AM - 12:30 PM)

-Conveners: Aurel Radulescu; Stéphane Longeville

time	[id] title	presenter
11:00 AM	[269] Kinetics of mesoglobules formation and disintegration in solutions of thermoresponsive polymers after fast pressure jumps	PAPADAKIS, Christine
11:30 AM	[114] Pressure-induced phase transition in polymer brushes: structural studies and thermodynamic predictions	CHIAPPISI, Leonardo
11:50 AM	[152] Integration of molecular machines and motors into supramolecular polymeric materials: structural properties studied by small-angle neutron scattering	Prof. BUHLER, Eric
12:10 PM	[84] The role liquid-liquid phase separation in biological process; a study with small angle neutron scattering and neutron reflectometry	BUCHANAN, Claire
