

European Conference on Neutron Scattering 2023

Monday, 20 March 2023

From Membranes to Kinetics and Dynamics - MW 2 001 - Lecture hall (14:00 - 16:00)

-Conveners: Margarita Kruteva; Christopher Garvey

time	[id] title	presenter
14:00	[41] Planar lipid bilayers as model biological membranes for structural neutron studies	Dr FRAGNETO, Giovanna
14:30	[484] Metabolically-incorporated deuterium in myelin from mice localized by neutron diffraction	Dr DEMÉ, Bruno
15:00	[272] Timescale of SARS-Cov2 virions with human host cells	JAKSCH, Sebastian
15:20	[421] Orange Carotenoid Protein: Effect of Internal Dynamics on Protein Functionality	GOLUB, Maksym
15:40	[27] Structural dynamics of substrate processing by the PAN-proteasome complex in solution: a time-resolved small angle neutron scattering study	GABEL, Frank
