

European Conference on Neutron Scattering 2023

Monday, March 20, 2023

From Membranes to Kinetics and Dynamics - MW 2 001 - Lecture hall (2:00 PM - 4:00 PM)

-Conveners: Christopher Garvey; Margarita Kruteva

time	[id] title	presenter
2:00 PM	[41] Planar lipid bilayers as model biological membranes for structural neutron studies	Dr FRAGNETO, Giovanna
2:30 PM	[484] Metabolically-incorporated deuterium in myelin from mice localized by neutron diffraction	Dr DEMÉ, Bruno
3:00 PM	[272] Timescale of SARS-Cov2 virions with human host cells	JAKSCH, Sebastian
3:20 PM	[421] Orange Carotenoid Protein: Effect of Internal Dynamics on Protein Functionality	GOLUB, Maksym
3:40 PM	[27] Structural dynamics of substrate processing by the PAN-proteasome complex in solution: a time-resolved small angle neutron scattering study	GABEL, Frank
