## The impact of $\gamma'$ nanoparticles on the tensile deformation of superelastic Co<sub>49</sub>Ni<sub>21</sub>Ga<sub>30</sub>

*Tuesday, 15 March 2022 10:00 (20 minutes)*

The impact of  $\gamma'$  nanoscale exsolution particles on the superelastic response of the Co<sub>49</sub>Ni<sub>21</sub>Ga<sub>30</sub> shape memory alloy under tensile load - an in situ study

**Primary author:** REUL, Alexander

**Presenter:** REUL, Alexander

**Session Classification:** Alloys and Battery Materials

**Track Classification:** Main conference: Engineering Materials and Applications
