

DGK conference 2022

Monday, 14 March 2022

Plenary Talk: H. Ehrenberg (13:30 - 14:30)

-Conveners: Anatoliy Senyshyn

time	[id] title	presenter
13:30	[171] Electrochemical Energy Storage - Insights from in operando Measurements	EHRENBURG, Helmut

Tuesday, 15 March 2022

Plenary Talk: M. Reischl (11:00 - 12:00)**-Conveners: Martin Meven**

time	[id] title	presenter
11:00	[188] Methods and Prospects of Machine Learning applied to Challenges in Crystallography	REISCHL, Markus

Plenary Talk: N. Shustova (13:00 - 14:00)**-Conveners: Alexander Pöthig**

time	[id] title	presenter
13:00	[244] Metal-Organic and Covalent-Organic Frameworks (MOFs and COFs): from Single Crystals to Novel Functional Materials	SHUSTOVA, Natalia

Plenary Talk: A. Kovalevsky (18:15 - 19:15)**-Conveners: Tobias Schrader**

time	[id] title	presenter
18:15	[182] Neutron crystallography to inform drug design targeting SARS-CoV-2 main protease	KOVALEVSKY, Andrey

Wednesday, 16 March 2022

Plenary Talk: T. Kimura (11:00 - 12:00)**-Conveners: Sohyun Park**

time [id] title

presenter

11:00	[184] Symmetry breakings and resulting magnetic, electric, and optical properties in ferroic materials	Prof. KIMURA, Tsuyoshi
-------	--	------------------------

Plenary Talk: L. Granasy (13:30 - 14:30)**-Conveners: Wolfgang Schmahl**

time [id] title

presenter

13:30	[253] Phase-field modeling of complex polycrystalline structures	GRÁNÁSY, László
-------	--	-----------------

Thursday, 17 March 2022

Plenary Talk: Bruno Canard (11:00 - 12:00)

-Conveners: Rolf Hilgenfeld

time	[id] title	presenter
11:00	[254] Kill or corrupt: the mode of action of nucleotide analogues against SARS-CoV2	CANARD, Bruno
