DGK conference 2022

Monday, 14 March 2022

Theory (14:30 - 16:10)

-**Conveners: Igor Baburin**

time	[id] title	presenter
14:30	[60] Assessing the severity of ice contamination in processed data sets with a combination of statistical tools and machine learning in AUSPEX	GAO, Yunyun
14:50	[36] Teaching Edition of International Tables for Crystallography: Crystallographic Symmetry	AROYO, Mois Ilia
15:10	[186] Multipole refinement and topological analysis of chemical bonding in β-boron	EISELE, Claudio
15:30	[110] DISEMM, a tool for the diffractive investigation of elasto-plastic behavior of polycrystalline alloys	HELDMANN, Alexander
15:50	[174] Insights into the nature of host-guest interactions in emergent framework materials	ERNST, Michelle
