

DGK conference 2022

Wednesday, 16 March 2022

Instrumentation in Biocrystallography (14:50 - 16:30)

-Conveners: Uwe Mueller

time	[id] title	presenter
14:50	[190] The High-Throughput Macromolecular Crystallography Beamline P11	HAKANPÄÄ, Johanna
15:10	[203] MicroMAX – A flexible macromolecular crystallography beamline at MAX IV with applications in serial and time-resolved crystallography	URSBY, Thomas
15:30	[207] The upgrade of ID29 in a Serial Macromolecular Crystallography Beamlines for Time-resolved experiments	DE SANCTIS, Daniele
15:50	[35] Facilities for Macromolecular Crystallography at the HZB	WEISS, Manfred
16:10	[202] HiPhaX – A fully automated High-Throughput Pharmaceutical X-ray screening endstation at the PETRA-III synchrotron in Hamburg	MEENTS, Alke
