

DGK conference 2022

Thursday, 17 March 2022

Structural Chemistry II (09:00 - 10:40)

-Conveners: Thorsten Gesing

time	[id] title	presenter
09:00	[163] Influence of polytype formation and Al and Si ordering on the crystal structure in β -Al _{4.5} FeSi	BECKER, Hanka
09:20	[67] Role of intermediate amorphous phases in CeO ₂ mesocrystal formation	TARAKINA, Nadezda
09:40	[148] Crystal structure, complex phase diagram and re-entrant phase transition in NaSrPO ₄	NÉNERT, Gwilherm
10:00	[140] Assigning the absolute configuration of liquid chiral molecules by capillary crystallization	NÖTHLING, Nils
10:20	[40] Pyrochlore: Radiation-damage and thermally induced structural reorganization	BEIRAU, Tobias
