Nanoparticles and Interfaces (9:00 AM - 10:40 AM)

-Conveners: Mirijam Zobel

time	[id] title	presenter
9:00 AM	[30] Synthesis and characterization of faceted bimetallic nanoparticles	KARATZIA, Aikaterini
9:20 AM	[56] Double-differential pair distribution function analysis to study hydration shells around iron oxide nanoparticles	THOMÄ, Sabrina
9:40 AM	[48] Synthesis, Structure, and Properties of Bimetallic Nanoparticles of Noble Metals	LOZA, Kateryna
10:00 AM	[210] Self-organization of nanoparticles into highly ordered lattices with protein nanocages as an atomically precise ligand shell	BECK, Tobias
10:20 AM	[22] Enhanced electrochemical dissolution of Ag nanoparticles in the presence of Pt nanoparticles	PRYMAK, Oleg
