

MLZ Conference 2023: Neutrons for Biomaterials

Monday, 22 May 2023

Nanomedicine - Schloss Fürstenried (15:40 - 18:00)

time	[id] title	presenter
15:40	[44] Application of X-ray and neutron scattering within development of RNA nanopharmaceuticals	HAAS, Heinrich
16:20	[7] Targeted drug delivery through nanoparticle optimization by small angle scattering	GARVEY, Christopher
16:40	[30] Redefining our understanding of drug loaded polymer micelles using neutron, synthesis and molecular modelling	LUXENHOFER, Robert
17:00	[14] Exploring the limits of passive macromolecular translocation through lipid membranes	KOSTYURINA, Ekaterina
