

MLZ Conference 2023: Neutrons for Biomaterials

Tuesday, 23 May 2023

Peptides, polymers and gels - Schloss Fürstenried (08:30 - 10:10)

time	[id] title	presenter
08:30	[4] Multi-responsive nanostructured materials for the targeted delivery of anticancer agents	IATROU, Hermis
09:10	[23] Coacervation of graft double hydrophilic block polyelectrolyte with oppositely charged surfactant	FANOVA, Anastasiia
09:30	[26] Polymer composition profile for controlled thermo-responsive nanoassemblies	BALESTRI, Arianna
09:50	[42] Injectable hydrogels from thermoresponsive tri- and tetrablock terpolymers	PAPADAKIS, Christine
