MLZ open datacatalogue: What is the status?

Thursday 5 December 2024 15:25 (25 minutes)

Within the DAPHNE4NFDI consortium MLZ has been working on providing a FAIR data access option. The central part will be the MLZ datacatalogue (which should be available before the Usermeeting).

We will show how the data in the catalogue look like, how you can really access it and a give an outlook on the coming data access options.

Primary authors: SCHNEIDEWIND, Astrid; Dr PEDERSEN, Bjoern (Forschungs-Neutronenquelle Heinz Maier-Leibnitz(FRM II), TU München); FELDER, Christian; OUAKI, Mohamed; HANNEMANN, Moritz (Forschungszentrum Jülich GmbH); LOHSTROH, Wiebke; TYMOSHENKO, Yuliia (TU Dresden)

Presenter: Dr PEDERSEN, Bjoern (Forschungs-Neutronenquelle Heinz Maier-Leibnitz(FRM II), TU München)

Session Classification: Neutron Methods

Track Classification: Neutron Methods
