

CREMLIN workshop: Engineering for advanced neutron instrumentation and sample environment

Monday, 14 May 2018

Poster session (18:00 - 19:30)

[id]	title	presenter	board
[7]	Development of the data acquisition system electronics for the project of wide-aperture backscattering detector for the HRFD diffractometer at the IBR-2 reactor	DROZDOV, Vladimir	
[13]	A new linear and ring neutron scintillation detector based on SiPM and lightguides	LITVIN, VASILY	
[5]	Modernization of sample environment Systems on IBR-2 Reactor Spectrometers in FLNP	Dr SIROTIN, Alexander	
[3]	Instrument control software at the IBR-2	Dr KIRILOV, Andrey	
[8]	Study of the heat flow due to the heat exchange gas in a shaft cryostat based on GM	Mr CHERNIKOV, Aleksandr Mr BUZDAVIN, Aleksandr
