German Conference for Research with Synchrotron Radiation, Neutrons and Ion Beams at Large Facilities

Tuesday, 18 September 2018

Parallel session 4: Magnetism and quantum phenomena - MW 0001 (11:00 - 12:30)

time	[id] title	presenter
11:00	[277] Vortex Lattice Domain Formation in the Type-II/1 Superconductor Niobium	BACKS, Alexander
11:15	[111] Magnetic order in the Cs2CuCl4-xBrx mixed system	VAN WELL, Natalija
11:30	[275] Magnetic small–angle neutron scattering of two–phase bulk ferromagnets	HONECKER, Dirk
11:45	[407] Static magnetic proximity effects and spin Hall magnetoresistance in Pt/Y$_3$Fe$_5$O$_{12}$	Dr GEPRÄGS, Stephan
12:00	[239] Observation of a chirality created exchange bias effect	LOTT, Dieter
12:15	[301] Probing electronic and magnetic properties in iridates using nuclear resonant scattering on 193Ir	WILLE, Hans-Christian
